

MRI exam preps/instructions

MRI No prep even when ordered with contrast

* Sedation may be required for patients that are claustrophobic or for patients that are unable to remain still for long periods of time. Please discuss this with your physician so that arrangements can be made for sedation at the time of scheduling. **If you have already scheduled your exam, please contact radiology directly at 258-4181.** These patients should arrive 1 hour prior to their MRI exam appointment time for sedation and they must also bring a driver
