Lexington Clinic is seeking a BC/BE Internal Medicine or Family Medicine physician to join a very busy hospitalist team. The department is currently made up of seven physicians and continues to need additional partners due to an increase in volume and referrals. The group covers one hospital and averages a daily group census of 100.

This position offers a competitive salary guarantee plus production driven quarterly bonuses. Opportunity for partnership is available after one year. Lexington Clinic offers a rich benefits package for physicians including health and dental, employee independent and dependent life coverage, 401k, short and long-term disability, long-term care, vacation, CME time and stipend and a flexible spending account.

Among the many positive aspects of this position are:

- Well defined work schedule
- Favorable call schedule
- Large internal referral base
- Sophisticated EHR system
- Excellent business infrastructure

Lexington Clinic is the largest and oldest private multi-specialty group practice in the Commonwealth of Kentucky, consisting of primary care physicians, medical surgical specialists, and allied health professionals. With more than 150 physicians, 50 physician extenders, and 1000 full-time employees, Lexington Clinic enjoys the reputation of a well-established and highly respected multi-specialty group practice.

Lexington Clinic is a private for-profit professional organization, owned by its physician partners and governed by a physician board of directors. Lexington Clinic offers more than 30 medical specialties in more than 15 locations. Services include a broad array of radiology and laboratory services, state-of-the-art cancer centers, pharmacy, and physical and respiratory therapy.

Lexington Clinic claims 18% of the Fayette county market, treats over 500,000 patients annually, and draws from a healthcare service area of 1.3 million.

**CORE VALUES**

- **Excellence** – striving for the highest quality patient experience regardless of our individual role.
- **Integrity** – firm adherence to a code of ethics, honesty, dependability, and respect.
- **Service** – enthusiastic and professional service to our patients, their families, the referring physicians, our colleagues, and our community.
- **Compassion** – for our patients, their families, and each other.
- **Respect** – appreciation of patients, partners, and staff.
- **Dedication** – commitment to our mission and recognition of the group and individual needs.
- **Fiscal Responsibility** – long-term financial discipline is the key to the security, strength, and growth of the organization.

**ORGANIZATION**

With more than 150 physicians, 50 physician extenders, and 1000 full-time employees, Lexington Clinic enjoys the reputation of a well-established and highly respected multi-specialty group practice.

Lexington Clinic is a private for-profit professional organization, owned by its physician partners and governed by a physician board of directors. Lexington Clinic offers more than 30 medical specialties in more than 15 locations. Services include a broad array of radiology and laboratory services, state-of-the-art cancer centers, pharmacy, and physical and respiratory therapy.

Lexington Clinic claims 18% of the Fayette county market, treats over 500,000 patients annually, and draws from a healthcare service area of 1.3 million.
Lexington Clinic began its commitment to provide quality healthcare services to Central Kentucky in 1920. The idea of forming a clinic for group practice was implemented by David Barrow, MD and Waller Bullock, MD. They, together with seven other physicians, formed a partnership patterned after the Mayo Clinic. Lexington Clinic’s rich history has been marked by many medical firsts:

- Dr. Elmer S. Maxwell, who joined Lexington Clinic on October 1, 1920, was the first pathologist in Lexington. Under Dr. Maxwell’s guidance, with the cooperation of the University of Kentucky, Lexington Clinic established a school for medical technologists.

- In 1925, Dr. Donnan Harding joined the Lexington Clinic staff as the first trained radiologist in Lexington. He was a pioneer in both diagnostic and therapeutic X-ray, establishing the first radiology department in Lexington.

- Lexington Clinic acquired Lexington’s first operating microscope, used for eye and middle ear surgeries.

- Lexington Clinic provided the first radiation therapy unit for treatment of cancer, introducing radium in the treatment of cancer.

- For many years, the only artificial kidney unit in Central Kentucky was owned and operated by Lexington Clinic.

- Lexington Clinic physicians introduced the gastroscopic camera and gastroscopic biopsy.

- In the late 1960’s, Lexington Clinic physicians developed the first cardiac care unit in Lexington at Saint Joseph Hospital.

- In 2004, Lexington Clinic installed the first 16-slice CT scanner in Lexington that could rotate around a patient’s body in only a half a second in 2004.

- In 2005, Dr. Alexis Norelle, Neurosurgery, performed the first artificial disc spine surgery in Lexington.

- In 2006, Dr. Richard Floyd, IV, performed the first thoracic ablation surgery for atrial fibrillation.

- The Lexington Clinic Center for Breast Care became the first breast center in Lexington to be designated by the American College of Radiology as a breast imaging center of excellence (BICOE).

LEXINGTON CLINIC FOUNDATION

Since its inception, Lexington Clinic has been committed to the community. In 1959, it created Lexington Clinic Foundation (LCF) to separate and steward funds for medical research and education. Over time, the focus of LCF has evolved. As a 501(c)3 non-profit, LCF raises and distributes funds to finance patient and community-based health services and provides scholarships in allied health sciences to Central and Eastern Kentucky students through the Fergus Hanson Memorial Scholarship fund.

LCF grantees have included the Chrysalis House, Central Kentucky Radio Eye, Visually Impaired Preschool Services, Family Counseling Service and the Community Action Council.
COMMUNITY

LEXINGTON, KENTUCKY

Lexington is the second-largest city in Kentucky with a population of approximately 300,000 and is known as the “Horse Capital of the World.” Located in the heart of the Bluegrass, white fences line the countryside and stately horse farms house some of the world’s greatest thoroughbred horses. Lexington is home to the Kentucky Horse Park, historic Keeneland Racetrack and the Red Mile race course and is an active university town – home to the University of Kentucky and Transylvania University.

With something to offer for everyone, from sports to fine arts and a variety of worship centers, Lexington is home to many thriving organizations including a professional orchestra, philharmonic, two ballet companies, professional theatre, museums, choral organizations and the historic Lexington Opera House.

Providing an excellent place to raise your family, Lexington offers a wide variety of public and private schools, which are ranked among the top third of schools nationwide, and a low crime rate. Lexington plays an integral part in the region as the leading medical and commercial center, creating a healthy economical climate with low unemployment and cost of living. The city is strategically located at the intersection of Interstates 64 and 75 and is approximately 60 miles from Louisville, Kentucky and Cincinnati, Ohio. Accessible by air, the local airport offers more than 80 daily flights to major cities throughout the country.
