Lexington Clinic is seeking a **BC/BE Radiation Oncologist** to join a well-established cancer treatment facility, the Southeastern Kentucky Cancer Center, located in Corbin, Kentucky.

Lexington Clinic operates three full-service cancer care centers and has been a leader in cancer care since 1983. Our centers are staffed by four radiation oncologists, five hematologist/oncologists, three physicists, ten certified radiation therapists, three certified medical dosimetrists and many oncology certified nurses.

Radiation oncology services include: CT simulation, image guided radiation therapy, intensity modulated radiation therapy, prostate implants, as well as three-dimensional treatment planning. The center also offers hematology/oncology services including chemotherapy.

This position offers a competitive salary and production driven quarterly bonuses. Opportunity for partnership is available after only one year with no buy-in. Lexington Clinic offers a rich benefits package for physicians including health and dental insurance, employee independent and dependent life coverage, 401k, short and long-term disability, long-term care, vacation and CME time, CME stipend and a flexible spending account.

**The three full-service centers include:**

- Southeastern Kentucky Cancer Center - Corbin
- The John D. Cronin Cancer Center – Lexington
- Richmond Regional Oncology Center – Richmond

**Among the many positive aspects of this position are:**

- Large internal referral base
- Favorable payer mix
- Sophisticated EHR system
- Excellent business infrastructure

ABOUT US

CORE VALUES

• Excellence – striving for the highest quality patient experience regardless of our individual role.

• Integrity – firm adherence to a code of ethics, honesty, dependability, and respect.

• Service – enthusiastic and professional service to our patients, their families, the referring physicians, our colleagues, and our community.

• Compassion – for our patients, their families, and each other.

• Respect – appreciation of patients, partners, and staff.

• Dedication – commitment to our mission and recognition of the group and individual needs.

• Fiscal Responsibility – long-term financial discipline is the key to the security, strength, and growth of the organization.

ORGANIZATION

Lexington Clinic is Central Kentucky’s oldest and largest multi-specialty group practice, consisting of more than 150 physicians, 50 mid-level providers, and 1,000 full-time employees. Lexington Clinic is a private, for-profit organization, owned by its physician partners and governed by a physician board of directors.

Lexington Clinic offers over 30 medical specialties in more than 30 locations throughout Central and Eastern Kentucky. We offer a broad range of primary and specialty care as well as ancillary services, including a AAAHC accredited ambulatory surgery center, laboratory services, physical and respiratory therapy, pharmacy and state-of-the-art specialty care centers for cancer, breast and sleep medicine.

Lexington Clinic claims 18% of the Fayette County market, treats more than 500,000 patients annually and draws from a healthcare service area of 1.3 million.
Lexington Clinic began its commitment to provide quality healthcare services to Central Kentucky in 1920. The idea of forming a clinic for group practice was implemented by David Barrow, MD and Waller Bullock, MD They, together with seven other physicians, formed a partnership patterned after the Mayo Clinic. Lexington Clinic’s rich history has been marked by many medical firsts:

• Dr. Elmer S. Maxwell, who joined Lexington Clinic on October 1, 1920, was the first pathologist in Lexington. Under Dr. Maxwell’s guidance, with the cooperation of the University of Kentucky, Lexington Clinic established a school for medical technologists.

• In 1925, Dr. Donnan Harding joined the Lexington Clinic staff as the first trained radiologist in Lexington. He was a pioneer in both diagnostic and therapeutic X-ray, establishing the first radiology department in Lexington.

• Lexington Clinic acquired Lexington’s first operating microscope, used for eye and middle ear surgeries.

• Lexington Clinic provided the first radiation therapy unit for treatment of cancer, introducing radium in the treatment of cancer.

• For many years, the only artificial kidney unit in Central Kentucky was owned and operated by Lexington Clinic.

• Lexington Clinic physicians introduced the gastroscopic camera and gastroscopic biopsy.

• In the late 1960’s, Lexington Clinic physicians developed the first cardiac care unit in Lexington at Saint Joseph Hospital.

• In 2004, Lexington Clinic installed the first 16-slice CT scanner in Lexington that could rotate around a patient’s body in only a half a second in 2004.

• In 2005, Dr. Alexis Norelle, Neurosurgery, performed the first artificial disc spine surgery in Lexington.

• In 2006, Dr. Richard Floyd, IV, performed the first thoracic ablation surgery for atrial fibrillation.

• The Lexington Clinic Center for Breast Care became the first breast center in Lexington to be designated by the American College of Radiology as a breast imaging center of excellence (BICOE).

LEXINGTON CLINIC FOUNDATION

Since its inception, Lexington Clinic has been committed to the community. In 1959, it created Lexington Clinic Foundation (LCF) to separate and steward funds for medical research and education. Over time, the focus of LCF has evolved. As a 501(c)3 non-profit, LCF raises and distributes funds to finance patient and community-based health services and provides scholarships in allied health sciences to Central and Eastern Kentucky students through the Fergus Hanson Memorial Scholarship fund.

LCF grantees have included the Chrysalis House, Central Kentucky Radio Eye, Visually Impaired Preschool Services, Family Counseling Service and the Community Action Council.
COMMUNITY

CORBIN, KENTUCKY
Corbin is a small scenic community located in the southeastern part of the state, offering a wealth of outdoor opportunities including mountain biking, river rafting, rock climbing, hiking, horseback riding and fishing. Cumberland Falls State Park attracts thousands each year and is the site of the only waterfall in the Western hemisphere to feature a regularly occurring moonbow. Nearby Laurel Lake is a popular recreational site for boating, fishing and waterskiing. Corbin offers a small town quality of life, but is within an hour-and-a-half drive to both Lexington, Kentucky and Knoxville, Tennessee. For more information about the community, visit www.corbin-ky.gov.

Please visit LexingtonClinic.com/cancer for more information about our cancer facilities.

LEXINGTON, KENTUCKY
Lexington is the second-largest city in Kentucky with a population of approximately 300,000 and is known as the “Horse Capital of the World”. Located in the heart of the Bluegrass, white fences line the countryside and stately horse farms house some of the world’s greatest thoroughbred horses. Lexington is home to the Kentucky Horse Park, historic Keeneland Racetrack and the Red Mile race course and is an active university town – home to the University of Kentucky and Transylvania University.

With something to offer for everyone, from sports to fine arts and a variety of worship centers, Lexington is home to many thriving organizations including a professional orchestra, philharmonic, two ballet companies, professional theatre, museums, choral organizations and the historic Lexington Opera House.

Providing an excellent place to raise your family, Lexington offers a wide variety of public and private schools, which are ranked among the top third of schools nationwide, and a low crime rate. Lexington plays an integral part in the region as the leading medical and commercial center, creating a healthy economical climate with low unemployment and cost of living. The city is strategically located at the intersection of Interstates 64 and 75 and is approximately 60 miles from Louisville, Kentucky and Cincinnati, Ohio. Accessible by air, the local airport offers more than 80 daily flights to major cities throughout the country.
